- 35 students were accepted into human health-related professional schools for fall 2014 term
- 69 students enrolled in international travel experience in 2014 (China, Australia, South America, Canadian Arctic)
- Record high numbers of 127 employers and 946 students at ABS career fair
- New minor in Precision Agriculture already has 28 students enrolled
- New acceptance agreement with the Via College of Osteopathic Medicine in Virginia
- Ground breaking for new Swine Education and Research Facility

FUTURE OPPORTUNITIES
- Food Science major and Food Safety minor moving to ABS
- Proposed new major in Natural Resources Law Enforcement
- Plan to propose new major in Precision Agriculture
- Proposed new minor in Meat Science
- Fundraising for new Cow-Calf Education and Research Facility

CHALLENGES
- New decentralized budget model with FY15
  - Future growth rewarded, but past growth has set the base high
  - Strategic reinvestment
  - Contingency requirement
- Reduction in credit hours required for degree
- Scholarship funding for recruitment
- Facilities enhancement must continue
- Shrinking pool of traditional ag/rural students
