This form is to be used to request a substantive change in a unique course.

Section 1. Current Course Title and Description
Prefix & No. | Course Title | Credits
---|---|---
NFS 251 | Food Safety and Technology | 3

Course Description as it currently appears in the system course database:
Fundamentals of food safety and the technology of conversion of agricultural raw material into finished food products suitable for food consumption. World and domestic food needs, chemical additives and current food safety issues will be discussed.

Section 2. Modification(s) Requested
1. This modification will include (check all that apply):
   - X Additional minor changes also proposed at this time (enumerate below):
   - X Change in prefix from: NFS to FS
   - X Course title change to: Food Safety Management Systems

2. Provide a justification for all of the changes noted.
The prefix change is associated with the separation of Food Science from Nutrition and Dietetics. The course title change is more consistent with modern industry terminology. The request to change the CIP code is to accurately reflect the nature of the course.

*Current CIP Code: 19.0501  Title: Foods, Nutrition, and Wellness Studies, General.*
Definition: A general program that focuses on the role of foods and nutrition in human health and wellness. Includes instruction in nutritional care and education, the planning and provision of food services, the development of consumable food products, life-span nutrition and wellness, the principles of nutritional assessment, and food safety and food composition.

*Proposed CIP Code: 01.1001  Title: Food Science.*
Definition: A program that focuses on the application of biological, chemical, and physical principles to the study of converting raw agricultural products into processed forms suitable for direct human consumption, and the storage of such products. Includes instruction in applicable aspects of the agricultural sciences, human physiology and nutrition, food chemistry, agricultural products processing, food additives, food preparation and packaging, food storage and shipment, and related aspects of human health and safety including toxicology and pathology.
