PERSONALIZING YOUR PROGRAM

Sociologists study the “big picture” focusing on the study of social life, social change and the social causes and consequences of human behavior.

Sociology encompasses a wide range of topics including family dynamics, social deviance and crime, government policies, social and demographic trends, and the impact of contemporary issues on businesses, corporations, schools and other public and private institutions. Sociology investigates how personal problems and social issues interact in matters such as romantic love, race and gender identity, family and community conflict, aging, and religious and culture differences. At the societal level, sociology focuses on matters such as crime and punishment, poverty and wealth, prejudice and discrimination, social movements, and schools and work environments. At the global level sociologists examine trends related to population growth, migration, war and peace, food insecurity and economic development. Sociology offers an enlightening way of seeing and understanding the social world which shapes our understanding of human social relationships, cultures, and institutions that profoundly shape both our lives and human history.

In studying our social world, students explore and analyze important issues in our personal lives, our communities and the increasingly global world we share. Students trained in Sociology learn to think critically about social issues, to ask important research questions, and to evaluate and communicate clearly and effectively.

As a Sociology major, you will develop the knowledge and analytical skills sought by employers in a wide range of fields. Courses in Sociology also prepare students to work with diverse populations in both public and private organizations; to succeed in working with people in human relations and human services fields; and to collect, analyze, and report on data. Graduates of our program are well prepared to engage in a wide range of career trajectories and vocational callings.

Bachelor of Sociology

CONTINUING AND DISTANCE EDUCATION

1. Broaden your perspective as you interact online with others across the world. Participate in class through e-mail, chats, discussion boards and other interactive methods.

2. With distance learning at SDSU you receive instruction from the same professors who teach at our campus in Brookings.

3. SD State Online’s sociology program offers courses through the summer to help you reach your goals even faster.

Statistics:

**With a High School Diploma**
- Avg. Unemployment: 9.4%
- Avg. Earnings: $1.2 million

**With a Bachelor’s Degree**
- Avg. Unemployment: 4.1%
- Avg. Earnings: $2.1 million

According to the Bureau of Labor Statistics, jobs in sociology are projected to grow by 15% over the next decade.

Evaluation support

What is MyState?
MyState is an all-inclusive campus page personalized to you as an SDSU student. Gather information on upcoming courses, registration details, textbooks, current course schedules, your tuition bill and faculty contact information. Staying on track is easy with this central source of information for your online program.

How do I check class availability for next semester?
Click the Web Advisor link for information on all of the course offerings in a semester. You can refine your search according to program area, course level, day and time restrictions and preferred instructor. Web Advisor helps ensure you choose courses that fit your program requirements, schedule and interests.

How do I check my campus email?
For any correspondence from professors or classmates, you can click the email link to sign in on MyState.

How do I find my list of required texts for class?
Simple! Click the MyState Textbooks link and look up your courses. All required books will be listed below each course.

What else?
Through MyState, you can view your academic transcript, apply for scholarships and receive standard SDSU updates.
