7. Explanation of the Change:

University policy for clinical experiences specifies that 1 credit of clinical experience shall be granted for every 60-100 hours of time spent in the clinical environment. Decreasing the credit hours for the clinical experience courses will allow the program to maintain compliance with policy (1 credit hour = 100 hours clinical experience), make these courses consistent with other programs with similar clinical experience requirements in the College of Education and Human Sciences, and still allow for attainment of programmatic outcomes delineated by the Commission on Accreditation of Athletic Training Education (CAATE).

The Department of Health and Nutritional Sciences seeks to offer the M.S. in Athletic Training as an accelerated B.S./M.S. program. Students may apply eight credit hours of coursework towards the undergraduate program and the M.S. in Athletic Training. Students would be able to pursue the accelerated master’s coursework under Option A (Thesis) or Option B (Research/Design Paper) plans of study. Students will complete:

- AT 600 Introduction to Patient Management (2 cr.)

- AT 610 Interventions I (3 cr.)
- AT 611 Prophylactic Interventions (1 cr.)
- AT 651 Clinical Experience I (1 cr.)
- AT 652 Clinical Experience II (1 cr.)

Students must follow policy and procedures outlined in SDSU Policy 2:22 Use of Graduate Credit for Undergraduate Degree Requirements.
