7. Explanation of the Change:

The Exercise Science program will increase HNS 496 Field Experience from two to three credits in order to comply with the SDSU policy for the number of credits that should be provided per the number of field experience hours required for a set course. This change increases the number of required credits for the program by one and thus reduces the number of elective credits allowed by one.

The College of Education & Human Sciences will replace EHS 309 Interdisciplinary Group Processes (2 cr.) with EHS 319 Life, Love, and Money (2 cr.).
