7. Explanation of the Change:

The program has eliminated extraneous credits in practicum courses and added those experiences to the content related courses so that clinical experiences are more meaningfully tied to content. In addition, the changes in credits allow for more efficient use of faculty workload time by eliminating one credit courses. There was also careful consideration of skills the program desires from all candidates including inquiry and research. The program has been developed to better reflect expectations in the field of teacher education in the area of instructional and school leadership.
