Comments/Notes

Students from all academic majors can pursue graduation with Fishback Honors College distinction. View the [Honors program requirements](#).

Entry into the Exercise Science program at SDSU is a competitive process. Upon completion of the prerequisite classes, all students will need to submit a formal application for admission to the Exercise Science Program. In order to stay on track to graduate in four years, students should plan to apply to the program in their sophomore year and if accepted, officially begin the program the Fall semester of their junior year. The Exercise Science program is a 4 semester (2 year) program that cannot be accelerated due to the structured progression of coursework.

Prior to the start of the Exercise Science Program students must successfully complete a C or better in the following courses: BIOL 221/221L Human Anatomy and Lab and BIOL 325/325L Human Physiology and Lab.

Students who want to complete EXS 496 (Field Experience) at a location besides Brookings or another commutable location should plan to take EXS 496 in the summer or plan accordingly so they have no other coursework during this semester.

Exercise Science Students must maintain a cumulative GPA of 2.75 and must get a "C" or better in all major coursework designated by *.
