

SOUTH DAKOTA BOARD OF REGENTS

ACADEMIC AFFAIRS FORMS

Substantive Program Modification Form

UNIVERSITY:	SDSU
CURRENT PROGRAM TITLE:	Landscape Architecture (B.L.A.)
CIP CODE:	04.0601
UNIVERSITY DEPARTMENT:	School of Design
UNIVERSITY DIVISION:	Arts, Humanities & Social Sciences
University Approval To the Board of Regents and the Execu	tive Director: I certify that I have read this proposal, that

I believe it to be accurate, and that it has been evaluated and approved as provided by university policy.

	Dennis D. Hedge		12/12/2019
	Vice President of Academic Affairs	or	Date
	President of the University		
1.	This modification addresses a change in:		
\geq	Total credits required within the discipline	\boxtimes	Total credits of supportive course work
\geq	Total credits of elective course work		Total credits required for program
	Program name		Existing specialization
] CIP Code		Other (explain below)
2.	Effective date of change: 2020-2021 Academic	ic Year	
3.	Program Degree Level: Associate □ Bache	lor's ⊠	Master's □ Doctoral □
4.	Category: Certificate \square Specialization \square	Mi	nor □ Major ⊠
5.	If a name change is proposed, the change wil	ll occui	:
	\square On the effective date for all students		
	☐ On the effective date for students new to the	progra	m (enrolled students will graduate from

Proposed new name:

6. Primary Aspects of the Modification:

existing program)

7. Explanation of the Change:

In 2015 the School of Design (SOD) was formed bringing together programs in Architecture, Graphic Design, Interior Design, Landscape Architecture, and Studio Art. The School identified 14 credits that would be required by all students within these programs. In addition to ART 121 Design I 2D (3 cr.), DSGN 110 Creative Thinking (3 cr.), DSGN 152 Design Fundamentals II (3 cr.), and an elective shop or studio in another School of Design discipline (3 cr.), programs required DSGN 140 Successful Design Student Practices (2 cr.). The School of Design has identified a need to shift the coursework to provide an experience that will be throughout a student's four years versus first-year level courses and to provide an opportunity for more cross-disciplinary learning.

The following changes have been identified for the Interior Design major:

- ART 121 Design I 2D (3 cr.) will be cross-listed to the DSGN prefix. This will allow for easier identification of the course as a core requirement within the School of Design curriculum.
- Removed DSGN 152 Design Fundamentals II (3 cr.) and increased the number of elective shop and/or studios in another School of Design discipline from three to six credits. Increasing the number of elective shop or studio credits will bolster the design learning outcomes for students in a cross-disciplinary fashion.
- Replaced DSGN 140 Successful Design Student Practices (2 cr.) with DSGN 452 Design Capstone (2 cr.). As a School, the skills students are receiving in DSGN 140 are skills that they are also gaining in other SOD first year courses. The faculty in DSGN 110 and ART 121 are instilling knowledge of successful student practices and student engagement. Students will benefit more from a collaborative senior student capstone experience DSGN 452. This capstone studio presents students with an interdisciplinary exploration of a contemporary issue in art and design. The topic of each section will be populated with upper-level undergraduate School of Design students. This course will be linked to the research and creative activity of a faculty lead. Students will draw on disciplinary practices and design foundations to complete a small-group project-based study. This is a way of preparing SOD students for future careers, where designers work collaboratively in the job market.
- Added LA 132 Seeing and Drawing the Land (3 cr.). This course covers unique aspects of landscape representation and exploration. It highlights specific tools and methods used by the landscape architecture profession and is the representational foundation upon which future coursework is based.
- Landscape Architecture title changes have been shifted to better reflect professional design curriculum. These titles have been implemented to clarify the content of the course.
- Technical electives have been reduced to specific School of Design coursework. The course list has been focused on the technical electives needed to meet accreditation requirements.
