<u>USD</u> Institution	<u>Health Sciences</u> Division/Department	<u>Elizabeth M. Freeburg</u> Institutional Approval Signature	<u>12/9/19</u> Date

Indicate universities that currently offer the common course:

BHSU DSU NSU SDSMT SDSU USD

Section 1. Existing Course Title and Description

Prefix & No.	Course Title	Credits
PUBH 723	Public Health Applied Practice Experience III	1

Course Description
This is the final course in the Public Health Applied Practice Experience series. Students will finalize their capstone project outlines in preparation for the Public Health Integrative Learning Experience.

Section 2. Modification(s) Requested

2.1. This modification will include:

- | | | | |
|---|---------------------|----|------------------------------------|
| | Current | | New |
| <input checked="" type="checkbox"/> Change in instructional method | <u>R - Lecture</u> | to | <u>S - Internship/Practicum</u> |
| <input checked="" type="checkbox"/> Grading option | <u>Letter grade</u> | to | <u>Satisfactory/unsatisfactory</u> |
| <input checked="" type="checkbox"/> Course Content/Description change (write proposed new content/description below) | | | |

This course builds on knowledge and skills gained in Public Health Applied Practice Experience II. Students will continue to build on and apply knowledge gained throughout the program and develop practice-based skills that enhance individual career goals.

Effective term of the change: Fall 2021

2.2. Add justification for all changes noted above:

The applied practice experience is a practicum-based course where students complete projects at public health practice settings supervised by a preceptor. There is no lecture-based content in the course. Therefore, an instructional method of internship/practicum matches the course delivery method. The course activities and assessments are better suited to a satisfactory/unsatisfactory grading method compared to a standard letter grade. Preparation for the capstone project will no longer be a component of the practicum courses as it is being moved to a new course. This change will allow for increased instructional content on research design and methods to better prepare students for the capstone. Because of this change, the reference to the capstone project has been removed from the course description.

Section 3. Other Course Information

Will this course equate (i.e., be considered the same course for degree completion) with any other unique or common courses in the common course database (Course Inventory Report)?

Yes No

Section 4. Department and Course Codes (Completed by University Academic Affairs)

	Current		New
<input type="checkbox"/> Change in University Department Code	<u>SPAHL, UHSD</u>	to	<u>No Change</u>
<input type="checkbox"/> Change in CIP Code	<u>51.2201</u>	to	<u>No Change</u>

Subject: RE: MPH Program Modification Forms

Hello All,

I have reviewed these forms for the substantive program modifications for the MPH program common courses, and think they look good. These changes are a culmination of months of hard work on the curriculum mapping and accreditation. I believe our many discussions in our accreditation workgroup, all-faculty, and curriculum and assessment committees were very fruitful.

Thanks everyone for working toward these positive changes for the next version of the MPH curriculum. Special thanks to Teresa for stewarding these changes through!

Best,
DenYelle
