7. Explanation of the Change:

The following changes have been identified for the Community and Public Health major:

1. Added HLTH 405 Health Coaching Concepts and Skills (3 cr.). This course will cover the required competencies to meet the National Board for Health and Wellness certification. A

curriculum map of the current courses offered on the major revealed that the current courses do not cover the specifics on health and wellness coaching structure, processes, and session management.

2. Added HLTH 495 Practicum (3 cr). This course will provide the hands-on practical experience required of the National Board of Health and Wellness certification prior to setting for the certification exam.
3. Decreased the number of electives from 19-20 to 13-14 credits.
