1. Provide specific reasons for the proposal of this course and explain how the changes enhance the curriculum.
This course and accompanying new course requests are to establish the new B.S. in Concrete Industry Management (CIM) at SDSU. The CIM program requirements ultimately will result in an accredited program under the Association of Technology, Management, and Applied Engineering (ATMAE).
2. Note whether this course is: Required Elective
3. In addition to the major/program in which this course is offered, what other majors/programs will be affected by this course?
None.
4. If this will be a dual listed course, indicate how the distinction between the two levels will be made.
N/A
5. Desired section size 35
6. Provide qualifications of faculty who will teach this course. List name(s), rank(s), and degree(s).
Search is currently underway for the first CIM faculty member who will teach in the CIM program as well as serve as Program Director. The Department is seeking a person with at least 10 years relevant industry experience, credentials consistent with a Professor of Practice rank.
7. Note whether adequate facilities are available and list any special equipment needed for the course.
The Department of Construction & Operations Management has adequate instructional facilities for this course. Test equipment in the Crothers Concrete Lab will be used for some lab exercises. Funding to purchase flatwork and forms, etc., will be provided by the external industry group.
8. Note whether adequate library and media support are available for the course.
There is adequate library and media support available.
9. Will the new course duplicate courses currently being offered on this campus? Yes No
10. If this course may be offered for variable credit, explain how the amount of credit at each offering is to be determined.
N/A
