## Academic Requirements:

Current:
If a student chooses to double major in two majors offered through the Ness School of Management and Economics (Economics, Agricultural Business, Business Economics and Entrepreneurial Studies), the second major needs to have at least 18 credits that are distinct from the first major.

## Proposed:

Students must earn a grade of "C" or better in ECON 485 Economics Capstone.
If a student chooses to double major in two majors offered through the Ness School of Management and Economics (Economics, Agricultural Business, Business Economics and Entrepreneurial Studies), the second major needs to have at least 15 credits that are distinct from the first major.

## 8. Explanation of the Change:

Removed a specific course selection from SGR \#1 and SGR \#2 to allow students more flexibility in meeting their System General Education requirements. Clearly indicated ABS Global Food Systems and ECON 201 Principles of Microeconomics are required SGR \#3 courses.

Decreased non-duplicative credit requirement if double majoring from 18 to 15 credits. This is necessary with the move to a common capstone course between the Agricultural Business, Business Economics, and Entrepreneurial Studies majors, which eliminates the capstone as a non-duplicative course.

The College of Agriculture, Food and Environmental Sciences has eliminated the college requirement to complete 11 credits from the Group 1 list. ABS 203 Global Food Systems and a requirement for
students to select 4-6 credits of ag, food and environmental sciences elective coursework were moved the supporting coursework requirements.
