Date

1. **Program Degree Level:** Associate ☐ Bachelor's ☐ Master's ☒ Doctoral ☐
2. **Category:**¹ Certificate ☒ Specialization ☐ Minor ☐ Major ☐
3. **The program action proposed is:**² Inactive Status ☐ Termination ☒

6. TERMINATION WITHOUT ENROLLED STUDENTS

A. Provide a justification for terminating the program:

The Department of Construction and Operations Management requests to terminate the Systems Management Certificate. There has been low student interest in the program, and currently no students are enrolled in this certificate.

B. What is the proposed date (day/month/year) for the program to terminate (program status in the database changes to *Deleted*)?

¹ Note: Certificates, specializations, and minors may only be terminated and not placed on inactive status due to limitations in the student information system.

² Note: An inactive program is a program a university has authority to offer, but the program is not admitting new students and has not formally terminated. A presumption exists that inactive status is a temporary status; universities review inactive programs periodically to determine the feasibility of reactivating or terminating the program. Programs can remain inactive for five (5) consecutive years at which time a university must terminate the program. A terminated program is a program for which a university ceases to have authority to offer. Reinstatement of a terminated program requires university and BOR approval through the prescribed new program approval processes.

Summer 2023

C. What are the potential cost savings of terminating the program and what are the planned uses of the savings?

There are no cost savings from terminating the certificate.

D. What are the resulting employee terminations and other possible implications including impact on other programs?

There are no employee terminations or other implications of this termination. The faculty will teach different graduate courses in the department.
