TO: SDSU students needing health clearance for certain majors

FROM: SDSU Student Health & Counseling Services

RE: Immunization and Physical Exam Information

As part of your course, major or athletic program, you may have requirements to complete before you begin onsite instruction or participation. Student Health and Counseling Services can assist in completing the following requirements:

**Tuberculosis (TB) Test**
Days available: Monday, Tuesday, Wednesday, Friday (not Thursday). Please call for an appointment or to request fee schedule. You must return to the clinic in 48-72 hours after the test to have results interpreted and documented on your forms. TB and Hepatitis B may be done on the same day.

**Hepatitis B Vaccination**
Days available: Monday through Friday – Please call for an appointment.

**History and Physical Exam/Health Statement**
Days available: Monday through Friday
Call 688-4157 to schedule an appointment; avoid Thursday if you want to combine this with your TB skin test. Be sure to bring any required forms needing completion along with you. Only one exam is scheduled per day due to scheduling constraints – so plan ahead! Examples of students needing physical exams include participants in child development, secondary education, nursing, ROTC, athletic teams or employment positions.

**Other Immunizations**
Our staff can review any other immunization requirements or recommendations with you. Such immunizations will be administered at an additional fee. Please make an appointment.

Please do not delay in setting up your appointment, as the number of appointments available for these types of exams is limited! Please call 688-4157 for an appointment, fee schedule questions, or for further information.

Payment is expected at time of service; we accept cash, personal checks, HOBO Dough, and major credit cards. Prices are subject to change.
